

## FOR IMMEDIATE RELEASE

### **OSCOR Blue Receives Security Products Reader's Choice Award**

Algood, Tennessee, USA – December 3, 2010

Every year, *Security Products* spotlights those products deemed most interesting and relevant to readers. The 2010 Readers' Choice Awards highlight a wide array of products from leading manufacturers in the security industry. The OSCOR Blue Spectrum Analyzer from REI was selected as a winner of the 2010 Reader's Choice Award for 2010 and will be listed among winners in its December issue.

Security Product readers voted for product winners throughout the year by responding via the magazine's readers' service cards or on the Security Products website.

The OSCOR Blue Spectrum Analyzer was introduced in January 2010, presenting a handheld tool for security and communication professionals. The OSCOR Blue has a rapid sweep speed and functionality suited for detecting unknown, illegal, disruptive and anomalous rogue transmissions across a wide frequency spectrum up to 24 GHz. More information on the OSCOR Blue Spectrum Analyzer can be found on the REI website at [www.reiusa.net](http://www.reiusa.net).

#### **About Research Electronics International**
