

## FOR IMMEDIATE RELEASE

### Technical Security Equipment (TSCM) Training Course offered in Spanish

*Research Electronics International (REI) is pleased to offer the Technical Security Equipment (TSE-101) TSCM training course in Spanish at REI's Center for Technical Security (Algood Tennessee USA) on October 9 – 12, 2007.*

This four (4) day course introduces and familiarizes the technical security specialist with various TSCM equipment operation and capabilities, and basic TSCM sweep procedures.

Course Topics include:

- Purpose, use, and methodology of various TSCM equipment,
- Overview of technical threats,
- Classroom equipment training, plus hands-on exercises on the operation of the CPM-700 Broadband Receiver, ORION NLJD, and OSCOR Spectrum Analyzer,
- Complex transmitters and their detection,
- TSCM equipment exercises in "live" project rooms.

All Course concepts are reinforced with hands-on practical exercises.

REI is offering this course in Spanish (via interpreter) due to customer demand from our Spanish-speaking customers. REI's Center for Technical Security is the largest commercially available TSCM training facility in the world.
